

Link Performance - Product Data Sheet

DESCRIPTION

A premium dugout seating solution for professional stadium environments. The monoblock high-density polyurethane foam shell is mounted on a reinforced metal frame to deliver ergonomic support and long-term durability.

Fire-retardant materials and a 4 mm laminated upholstery finish provide enhanced resistance to UV, abrasion and chlorine. The rear panel accommodates customised branding.

Supplied on a project-specific metal support structure and compatible with optional integrated heating systems.

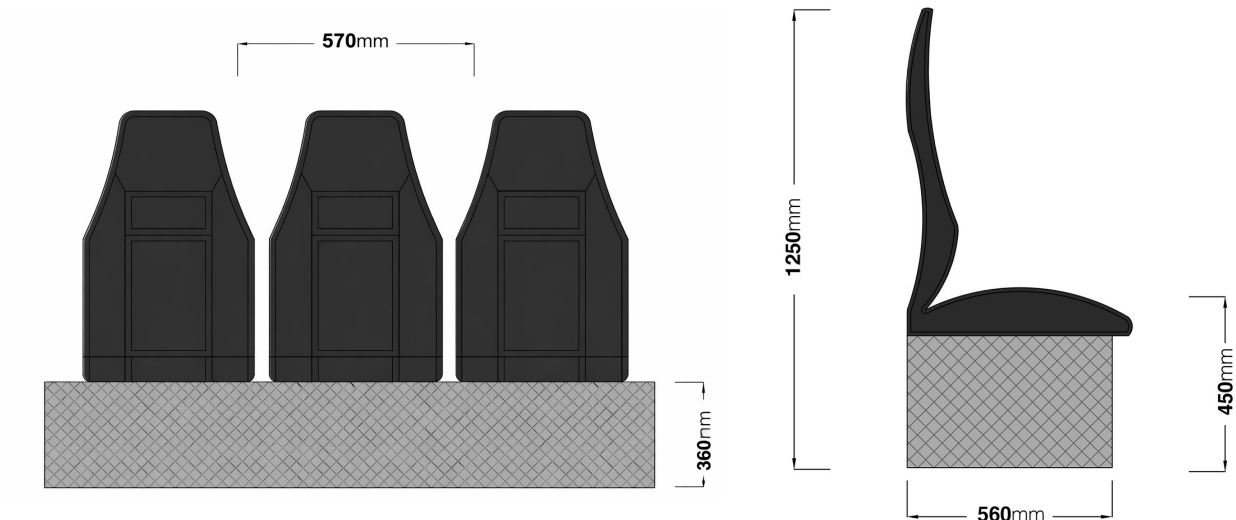

KEY FEATURES

- ✓ Monoblock ergonomic seat design for enhanced comfort and durability
- ✓ Customisable rear back panel suitable for club branding and advertising
- ✓ Mounted on a robust metal support stand (project-specific configurations available)
- ✓ Designed for professional dugout and substitute bench applications
